Misook Park et al., Confidential, Draft, CE Staff Meeting, September 2004

In order to come up with the summary that I will show you in the next few slides, I considered these key points for each of the reviewed studies.

A Model to Evaluate Biomarkers, Disease and Smoking in Humans

Misook Park, MS

Confidential, Draft, CE Staff Meeting
September 2004

I want to thank everyone, especially Martin, for giving me an opportunity to work and learn at Philip Morris this summer. During my internship, my job was to evaluate biomarkers, disease and smoking in humans.
